

Advanced Render Pack

For ARC+ 2011 Edition

The feature rich
render add-on for
CAD professionals

More Render Capabilities

Artistic Rendering

QuickTime VR™ and VRML

Lensflare 3D

Hidden Lines

VRML

Export to VRML format for interactive rendering in third party viewers.

Render Sketch Styles:

- Color wash
- Hand drawn
- Ink Print
- Rough pencil
- Soft Pencil
- Cartoon
- Stipple
- Lines & Shadow
- Hatch

Lines and color fill

Combines outlines with shading strokes, allowing control over the full range of effects which sketch rendering is capable of.

3D Lensflare

Realistic camera halos from lights.

Hidden Lines

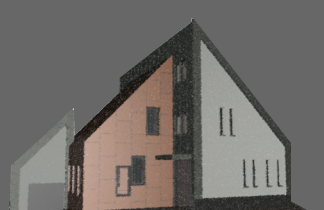

Display a line-drawn image of the scene in which only those lines which are visible from the view point are displayed.

QuickTime VR

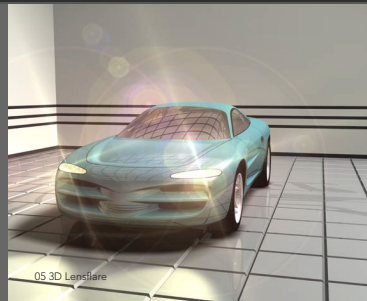

Panoramic 'movies', constructed from a series of images from a fixed viewpoint, which allow the viewer to freely rotate around the viewpoint and 'look' in all directions.

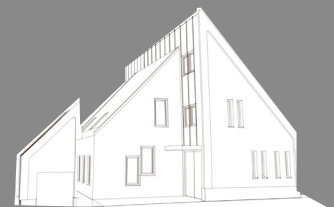

01 Default render

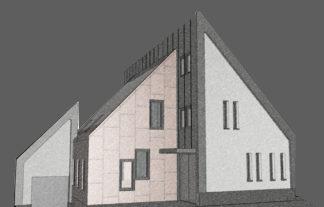

02 Oil Paint

05 3D Lensflare

03 Sketch

04 Pencil

06 Photorealistic

" Making more rendering options available in ARC+ allows you to dramatically extend the presentation options of your projects "
